Walk in Cool Rooms

Walk-In Room are always tailored to the customer's needs. FROSTAIRE ISOWALL sandwich panel has been designed individual temperature controlled cold room solutions.

“Walk-In” is a pan-European term that includes a large, “walkable” clean, chiller and freezer rooms. The principle of operation for clean rooms is based on a high air pressure environment, cold rooms are cooled with either integral, remote or central refrigeration units.

There are many advantages of our customized design:

No standard dimensions. No modular system. Our products are customized for the needs of our customer. We can manage all of your special demands such as glass doors, special floor, silent condensing unit, shelving system, etc.

Can be customized to suit individual needs.

Exact panel connections at the corners.

Various types and custom design

Always a custom look

Easy and quick assembly

Dismountable design – easy to resettle

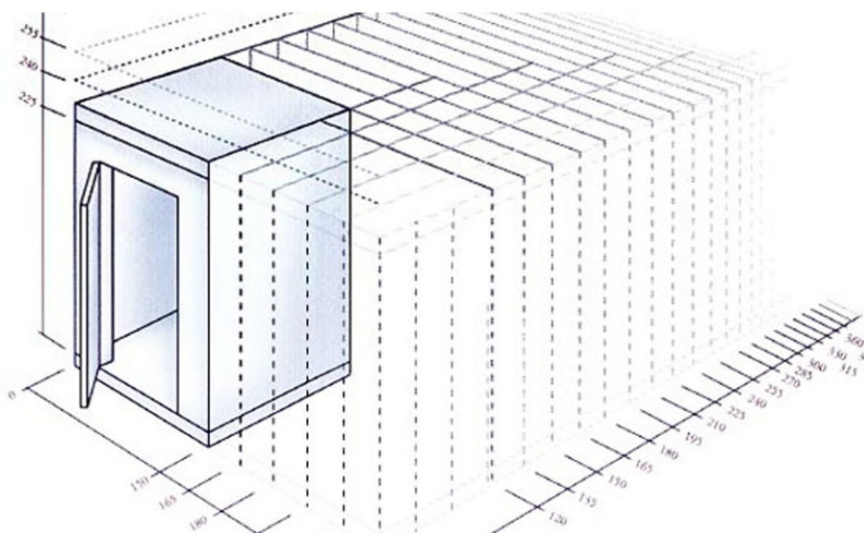

Long durability perfect construction

Energy saving with customized PU panels

Efficient space utilization Balanced refrigeration system

Commercial cold room production and installation from our professional company.

Our cold rooms and freezers are made of modern PU/PIR panels, which fulfils all of hygienic and authority requirements. Special panels for example fire safe and PE coated types are available

Established in 1923, Patton is a leading manufacturer and wholesaler of refrigeration, air conditioning and mechanical services products. With manufacturing facilities in New Zealand and Thailand and sales representation throughout the Pacific and Asia, Patton is an internationally respected global company.

Emerson has boldly transformed itself to create value for our customers and shareholders. With our newly energized focus on our two core business platforms — Automation Solutions and Commercial & Residential Solutions — we can confront the challenges of an increasingly complex and unpredictable marketplace from a position of strength. This allows us to drive both near- and long-term value. And retain our single-trusted-partner status with the process, industrial, commercial and residential industries.

For more than 80 years, the BITZER name has represented the highest quality, efficiency and reliability. BITZER is the only company to produce all three primary types of compressor: reciprocating, screw and scroll. And with its environmentally friendly solutions and innovative electronic products, BITZER is driving the refrigeration and air-conditioning industry around the world.
